Chairman Message

Dear Shareholders,

It gives me immense pleasure to write you to present the Annual Report for FY 2024-25.

Global Economic Overview

The global economy in 2024-25 has navigated through a landscape of both opportunities and challenges. We have seen a steady recovery from the pandemic-induced slowdown, with advanced economies exhibiting moderate growth. However, emerging markets have faced headwinds, including inflationary pressures and supply chain disruptions. Geopolitical tensions in various regions have added to the economic uncertainties, impacting global trade and investment flows. Despite these challenges, the global economic environment has provided avenues for growth, particularly in sectors driven by technological advancements and sustainability initiatives.

Indian Economic Landscape

India's economy has been a beacon of resilience and growth amidst global uncertainties. The projected GDP growth rate of around 6.5% for the fiscal year stands as a testament to the robustness of the Indian economy. The government's focus on infrastructure development, digital transformation, and structural reforms has laid a strong foundation for sustainable growth. The agricultural sector has shown remarkable resilience, while the manufacturing sector, bolstered by the 'Make in India' initiative, has witnessed significant progress. The renewable energy sector has emerged as a key growth driver, with substantial investments and policy support propelling its expansion.

Cotton Yarn Industry

The cotton yarn industry is a vital component of the global textile sector, supplying raw materials for fabric production across a wide range of applications. The global cotton yarn market has demonstrated resilience,

with steady demand from major textile manufacturing hubs in Asia, Europe, and North America. Despite challenges such as fluctuating cotton prices and trade uncertainties, the industry has maintained a positive growth trajectory. Technological advancements in spinning and weaving processes have enhanced production efficiency and product quality, catering to the evolving demands of the fashion and apparel industries.

In India, the cotton yarn industry is a cornerstone of the textile sector, contributing significantly to the country's exports and employment. India is one of the largest producers and exporters of cotton yarn, with a well-established supply chain that spans from cotton cultivation to yarn production. The Indian cotton yarn industry has benefited from government initiatives aimed at boosting the textile sector, such as the Technology Upgradation Fund Scheme (TUFS) and the Production Linked Incentive (PLI) scheme. These initiatives have encouraged investments in modernizing facilities and adopting sustainable practices.

Solar Energy Industry

The global solar energy industry has experienced unprecedented growth, driven by the urgent need to transition to renewable energy sources to combat climate change. Solar energy has become one of the most viable and cost-effective alternatives to traditional fossil fuels, with technological advancements reducing the cost of solar panels and increasing their efficiency. The global solar market has seen substantial investments, supported by favorable government policies, incentives, and a growing awareness of the environmental benefits of solar energy.

In India, the solar energy sector has emerged as a critical component of the country's renewable energy strategy. India has set ambitious targets for solar capacity, aiming to achieve 280 GW of installed solar energy by 2030. The government's initiatives, such as the National Solar Mission and various state-level policies, have created a conducive environment for the growth of the solar industry. India's vast geographical diversity and high solar insolation levels provide an ideal setting for solar power generation, making it a key player in the global solar market.

At Katare Spinning Mills Limited, our solar energy division has been a cornerstone of our growth strategy. We have made significant strides in expanding our solar energy portfolio, focusing on both large-scale solar farms

and innovative solar solutions for residential and commercial use. Our solar projects have not only contributed to reducing carbon emissions but also promoted sustainable energy usage. The supportive government policies and incentives have facilitated our expansion plans, and our investment in research and development has positioned us at the forefront of technological advancements in the solar industry.

Future Outlook

As we look ahead, we remain cautiously optimistic about the future. The cotton yarn market is expected to grow steadily, driven by increasing demand from the textile industry. We will continue to invest in state-of-the-art technology and sustainable practices to maintain our competitive edge. In the solar energy sector, we anticipate exponential growth as global and domestic demand for clean energy rises. We are committed to expanding our solar footprint and exploring new business opportunities in the renewable energy space.

Revenue from operations was stood at Rs. 51,197.57 (in thousand) as compared to last year's income of Rs. 40,047.01 (in thousand). During the reporting period under review, the Company has incurred a net Loss of Rs. 17,304.11 (in thousand) as compared to last year's net loss of Rs. 18,730.14 (in thousand). Now Company has accommodated with changes and has a vision of growing manifold in upcoming financial year.

In conclusion, I extend my deepest gratitude to our shareholders, customers, employees and partners for their unwavering support and trust.

Thank you for your continued support and I look forward to another year of growth and success for Katare Spinning Mills Limited.

Best Regards,

KATARE SPINNING MILLS LIMITED

The instructions for shareholders voting electronically are as under:

1. The voting period begins on 26th September, 2025 (9.00 am) and ends on 28th September, 2024 (5.00 pm) during this period the shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off (Record) date of 20th September, 2025, may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
2. Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
3. Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange

Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level. Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

4. In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Step 1: Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.
